

# CLAIMS

1        1. *(currently amended)* A method comprising:  
 2        launching an application on a user system;  
 3        tracking usage of said application so as to generate usage data  
 4        on said user system;  
 5        accessing an update site from said user system;  
 6        transferring said usage data from said user system to said  
 7        update site;  
 8        said update site prioritizing updates at least in part as a function  
 9        of said usage data; and  
 10        said update site presenting to a user a list of said updates as  
 11        prioritized in said prioritizing step.

1        2. *(canceled)*

1        3. *(currently amended)* A method as recited in Claim ~~2~~1  
 2        wherein said user selects one or more of said updates for said  
 3        application.

1        4. *(original)* A method as recited in Claim 3 wherein said  
 2        selected ones of said updates are installed so as to modify said  
 3        application.

1        5. *(original)* A method as recited in Claim 1 wherein further  
 2        development of said application is directed in part as a function of  
 3        said usage data.

1       6. *(currently amended)* A software program set on computer  
2 readable media, said software program set comprising:

3       a usage data evaluator for ~~receiving and~~ evaluating raw usage  
4 ~~data received from provided by~~ a user computer system regarding a  
5 version of a software application installed thereon, said usage data  
6 evaluator providing evaluated usage data;

7       an update prioritizer for prioritizing updates available for said  
8 version at least in part as a function of said evaluated usage data;  
9 and

10       a web interface for ~~communicating with said user computer~~  
11 ~~system via a browser on said use system so as to present presenting~~  
12 to a user of said user computer system a list of said updates as  
13 prioritized by said prioritizer.

1       7. *(canceled)*

1       8. *(previously presented)* A software program set as recited in  
2 Claim 6 wherein said web interface specifies, for at least some of  
3 said updates, advantages over said version of said application.

1       9. *(original)* A software program set as recited in Claim 6  
2 further comprising a usage-tracking module installed on said user  
3 computer system.

1       10. *(original)* A software program set as recited in Claim 9  
2 wherein said usage-tracking module is integrated with said version  
3 of said application.
